Professional Summary

Results-driven Senior .NET Developer with 7+ years of experience designing, developing, and deploying scalable enterprise applications using .NET Core, ASP.NET MVC, Web API, and SQL Server. Strong expertise in RESTful API development, microservices architecture, and performance optimization.

Currently working on modern applications using **.NET 10** and building cross-platform mobile applications using **Flutter integrated with secure Web APIs**. Proven ability to deliver high-performance solutions in Agile environments with strong stakeholder communication skills.

Seeking opportunities in Australia (subclass 190/189/491 pathway aligned) or remote engagements with global teams.

Technicl Skills

Backend

- .NET 10, .NET 8, .NET Core
- ASP.NET MVC, Web API
- C#, Entity Framework Core, Dapper
- Microservices Architecture

Frontend

- JavaScript, jQuery, AJAX
- Flutter (API Integration)
- Responsive UI Design

Databases

- SQL Server (Advanced Query Optimization)
- PostgreSQL
- MongoDB

DevOps & Tools

- Git
- Docker (Containerization)
- Hosted Services
- RDLC Reporting
- API Integration

Professional Experience

Senior .NET Developer

Dev Information Technology Ltd | Jun 2024 – Present

- Developing enterprise-grade applications using .NET 10 and ASP.NET Core.
- Designing scalable RESTful APIs consumed by Flutter mobile applications.
- Improving SQL query performance, reducing response time by 30%.
- Implementing containerized deployment using Docker.
- Participating in architecture discussions and code reviews.

.NET Developer

Hyperlink Infosystem | Jul 2023 – May 2024

- Built product-based solutions using .NET Core and SQL Server.
- Developed and optimized backend APIs for high-traffic applications.
- Collaborated with UI/UX teams to enhance user experience.

.NET Developer (Team Lead Role)

MJ Solanki | Aug 2022 – Jun 2023

- Designed RESTful APIs and integrated third-party services.
- Led a small development team (3 members).
- Conducted performance audits and improved system efficiency.

.NET Developer

XtraNet Technologies Pvt. Ltd. | Jan 2021 – Jul 2022

- Worked on microservices architecture using ASP.NET Core.
- Developed large-scale applications with Angular and SQL Server.
- Improved database indexing strategies for faster reporting.

Earlier Roles

- Dev Information Technology Ltd (2020)
- NIC Gandhinagar (Government Project – Contract)
- True Code Master Pvt. Ltd. (Junior Developer)

Focused on ASP.NET MVC development, reporting modules, and database-driven applications.

Key Projects

Factoring Finance System

- Built financial modules using .NET MVC and SQL Server.
- Managed client requirement gathering and implementation.
- Delivered reporting dashboards with optimized queries.

Football Team Management (MVP)

- Developed REST APIs using .NET Core.
- Implemented background job scheduling for player stats tracking.

Agriculture Subsidy Portal (Government Project)

- Developed reporting modules using RDLC.
- Integrated dynamic templates for government schemes.

Interest Subsidy Scheme (Latest Project)

- Full-stack system using ASP.NET Core 8 + Web API.
- Loan tracking and automated reporting system.
- Integrated API with external financial systems.

Current Project – .NET 10 + Flutter Integration

- Building secure backend APIs in .NET 10.
- Flutter-based cross-platform mobile app consuming APIs.
- Token-based authentication and role-based access.

Education

Bachelor of Engineering – Computer Engineering
Completed: 2018
Percentage: 72.08%

Certifications

- ASP.NET with MVC – Maxgen Technologies
- Academic Training – Peafowlsoft Pvt. Ltd.

Additional Information

- Languages: English, Hindi
- Available for: Australia Relocation | Remote | Contract
